Orcas Island

Orcas is the largest of the San Juan Islands serviced by Washington State Ferries. The rural island is larger than Manhattan, and is inhabited by Orca whales, otter, deer fox, rabbits, countless birds, including bald eagles and friendly locals. Orcas Island boasts Mt. Constitution, which stands 2,409 feet tall and offers breathtaking views of all the islands from Canada to the mainland of Washington. Located at the base of the mountain within Moran State Park is beautiful Cascade Lake. The park is a wonderful place to hike, cycle, and swim. Orcas has many other year round outdoor activities, such as; kayaking, golfing, sailing, diving, parasailing, whale watching, birding, fishing, crabbing, wildlife photography, and horse back riding.
